

# Erasmus+ Programme

## Bilateral Inter-Institutional Agreement

### Key Action 1

### Learning Mobility for Higher Education Students and Staff

### among EU Member States and third countries associated to the Programme

1

The institutions agree to cooperate for the exchange of students and/or staff in the context of the Erasmus+ programme. They commit to respect the quality requirements of the Erasmus Charter for Higher Education in all aspects related to the organisation and management of the mobility, including automatic recognition of the credits awarded to students by the partner institution as agreed in the Learning Agreement and confirmed in the Transcript of Records, or according to the learning outcomes of the modules completed abroad, as described in the Course Catalogue, in line with the European Credit Transfer and Accumulation System. The institutions agree on exchanging their mobility related data in line with the technical standards of the European Student Card Initiative.

#### **Grading systems of the institutions**

Receiving higher education institutions need to provide a link to the statistical distribution of grades or make the information available through EGRACONS according to the descriptions in the ECTS users' guide. The information will facilitate the interpretation of each grade awarded to students and will facilitate the credit transfer by the sending institution.

##### **ESIMar**

ESIMar's Practicum, internships for undergraduate students, is the core course for the curriculum, with the highest number of credits in the program, 80 out of 240. From a didactic perspective, clinical practices, study and reflection sessions, and simulation workshops harmonically combine to benefit the student's learning process. The curricular clinical practices are shaped around 9 mandatory courses, starting during the first year and carrying on throughout the whole program. The syllabi emphasize the development of general, transversal, and specific skills from a reflective professional action performed in different areas and assistance levels. All together, the applied methodologies encourage and facilitate the transfer and inference of knowledge.

In every practicum period, each student is assigned a person of reference that will work as an advisor, monitoring and assessing the whole learning process. In the same way, students will count with the guide of an experienced nurse or clinical mentor in the internship center, who will be assigned to guide each of them throughout the practices.

### Termination of the agreement

*Either Institution may, by written notice to the other Institution, terminate this Agreement and its effects. However, the institution that wills to terminate the present Agreement shall notify the other Institution with, at least, one academic year of advance. Thus, a unilateral decision to discontinue the exchanges notified to the other party by 1 September 20XX will only take effect as of 1 September 20XX+1. Neither the European Commission nor the National Agencies can held responsible in case of a conflict between the Institutions that sign the present Agreement.*
